We've got to build it here – it's up to you and me!

I wanna tell you something – about a tiny mustard seed
I'm gonna tell you on my rhythm guitar with maybe a bit of lead!
It's really small but it grows high – it really is the best
The birds all come to gather there – it's where they build their nest.

I wanna tell you something about a man walking out in a field
He saw something in the ground like a box which had been concealed.
He dug it up and was amazed at the treasure it revealed
So he sold his house and went right out and bought the entire field.

I wanna tell you something about some fishermen in a boat
They caught the fish in their nets and then – well please take note!
They dragged the fish upon the land as quickly as they could
They sorted out the good from bad and only kept the good!
